

## Ba.belle / Bruno Rainaldi, 2009

**Specchiera contenitore composta da quattro elementi in rete microforata cromata, apribili con anta a specchio, interno in acciaio inox. I due moduli più grandi sono corredati di ripiano interno in cristallo trasparente. Possibile anche la composizione di singoli elementi a schema libero. Corredata di barra per facilitare il montaggio a parete.**

Mirror/container composed by four elements in chromed micro-pierced net with mirror door and stainless steel internal side. The two bigger containers are provided with an internal shelf in transparent glass.

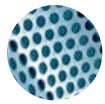

It is also possible to create free compositions using the single elements. Equipped with bar for easy wall mounting.

Miroir avec rangement, composé de quatre éléments en métal microperforé chromé avec porte miroir et intérieur en acier inox. Les deux éléments les plus grands contiennent une tablette interne en verre transparent. Possibilité de moduler librement les différents éléments. Barre fournie pour faciliter la fixation au mur.

Spiegelschrank bestehend aus vier Elementen aus verchromtem Lochblech, die geöffnet werden können, mit einer Tür aus Spiegel und der Innenseite aus Edelstahl. Die beiden größeren Module besitzen ein Innenfach aus transparentem Kristallglas. Einzelne Elemente können frei kombiniert werden. Es wird mit einer Stange zum leichteren Anbringen an der Wand geliefert.
